39. Read G.O.No.'s.3313 P.H. dated 16-9-38 communicating a copy of the remarks of the Director of Public Health in regard to the grant of permission by the Udipi Municipal Council ⁱⁿ ~~and~~ its resolution No.20 dated 14-6-38 for the installation of a 3 H.P. engine in building No.3594-3595 of Vadbettu Ward and directing the council to revise its above resolution and to refuse permission for the installation of the said oil engine.

Read also Municipal Council Resolution No.20 dated 14-6-38 and No.22 dated 11-10-38 with all connected papers.

Read also this office notice R.M.C.No.7140-1R/38 dated 18-10-38 giving notice to Sri. K. Venkatesh Shanbhag to appear before the Council on 31-10-38.

Read also Municipal Council resolution No.14 dated 31-10-38 and the party's reply dated 10-11-1938.

"The Council is willing to cancel the license in view of the Government order. But as the neighbours have no objection to the continuance of the engine and the owner himself will be hard hit if he is asked to close it at once or to substitute it by an electric motor, the council in the circumstances of the case requests Government to keep the order in abeyance till 31st March, 1939 by which time the really poor owner promises to substitute an electric motor or close the concern. The owner was heard."

VR.2.12.

Enclosure

To

The Chairman of Municipal Council,
Majhi.

Representation by the residents of Faddbetta Ward,
Near the Roman Catholic Church, Majhi.

After obtaining a license, one Sri. V. Venkatesh
Chandbhag has installed a 3 H.P. oil engine in a building
belonging to the Roman Catholic Church in Faddbetta Ward,
and he is preparing wheat flour. We have noted the contents
of the notice issued by the Municipality, in view of a
Government order regarding the cancellation of the license
for the installation of the said oil engine.

Contrary to the statement in the said notice,
the engine does not create any nuisance whatsoever. The
engine is run from 8 A.M. to 4 P.M. therefore the
question of disturbance to sleep does not arise. Again
there is ample airy space behind the building wherein the
engine is installed and there is no possibility for the
air to get itself contaminated. The noise created by
the engine, one of the types which in large cities are
installed in houses, is tolerable. Moreover engines of
higher horse-power are creating more sound than this small
engine are existing and are run in the neighborhood and
to say that an engine of such a small horse-power, is
creating nuisance is not justified. We are of opinion that
the Government has been ill advised by the concerned higher
authorities.

We request the Municipality to address Government
to reconsider their order or otherwise it will be retarding
the progress of the future industrial development of this
town, and a consequent loss to the Municipality, and will
result in the imposition of enhanced rates and taxes on us,
the poor tax-payers.

Under the circumstances above stated, and in
view of the fact that there is no complaint of any sort
regarding the installation or running of the engine, we
request that Government may be addressed not to cancel the
license.

(The above is a true translation of the Punjabi portion of
the petition)

the working of the engine is not a nuisance
to the Church we have no objection to the issue of licence
by the Municipality.

M. R. Equiera,
Catholic Priest, Majhi,
29-10-1938.
